## Revisiting Goaltending A Complementing Guide to Today's Teaching

Commentary and Essays from  
Joe Bertagna and Darren Hersh

Veteran goalie coaches **Joe Bertagna** and **Darren Hersh** have joined forces to produce a unique new tool to help goalies and coaches understand how the position should be played. Bertagna and Hersh, who both played and coached at the professional ranks, take on such topics as “Depth,” “Predictability,” and “Reading Plays,” in this 64-page paperback that will serve as a good complement to today’s private goalie coach culture.

Bertagna and Hersh have self-published and a limited number of these books is now available. Order yours today!
